MKS EduData

DATA SERVICES & SOLUTIONS

Turning Educational Data into Better Decisions.

Analytics | Insights | Automation | Growth

COMPANY PORTFOLIO

Practical data analytics, business intelligence and reporting solutions for schools, colleges, coaching centres and learning institutes.

OUR FOCUS
Education • Analytics • Automation

OUR PROMISE
Clear reports. Useful insights. Better-informed decisions.

Prepared for educational institutions

01 | WHO WE ARE

MKS EduData is an education-focused data services and solutions brand. We help educational institutions organise their existing information and turn it into understandable reports, dashboards and management insights.

Our approach is practical: understand the institution's reporting challenge, work with approved data sources, build a fit-for-purpose solution and explain what the results mean for day-to-day management.

Who we support

Schools

Student strength, attendance, fee tracking and academic results.

Colleges & universities

Department-level reporting, enrolment, results and placement analysis.

Coaching centres

Enquiries, admissions, course performance and fee collection.

Tuition & training institutes

Learner records, attendance, payments and progress reports.

What clients can expect

- **Clarity:** easy-to-read reports designed around management questions.
- **Consistency:** repeatable reporting formats and agreed KPI definitions.
- **Efficiency:** less repetitive manual work where reporting can be streamlined.
- **Practicality:** recommendations connected to the institution's actual data and goals.

Our positioning: affordable, approachable analytics support for institutions that want to make better use of the data they already collect.

02 | OUR SERVICES

Student data analytics

Enrolment summaries, class-wise student counts, active/inactive records and retention trends.

Attendance analytics

Daily and monthly attendance, class comparisons, absenteeism patterns and follow-up lists.

Fee & collection analytics

Expected versus collected fees, outstanding balances, monthly collections and collection trends.

Admission analytics

Enquiry tracking, admission conversion, course demand, lead sources and counsellor-level summaries.

Academic performance analytics

Subject-wise results, class comparisons, exam trends and identification of students who may need support.

MIS & reporting automation

Excel reporting, Power BI dashboards, SQL-based data extraction, data cleaning and recurring management reports.

Technology toolkit

Excel Cleaning, analysis and MIS	**Power BI** Interactive dashboards	**SQL / MySQL** Querying and extraction	**Python** Analysis and automation

The tools used for each engagement depend on the client's current systems, data format, access requirements and reporting needs.

03 | SAMPLE SOLUTIONS

The following are proposed demonstration projects using fictional/sample data. They illustrate the type of reporting MKS EduData can develop; they are not claims of completed client engagements.

School management overview	Coaching centre performance
A consolidated view of student enrolment, attendance, class strength and academic results.	A management view of enquiries, admissions, course demand and fee collection.
Possible KPIs • Total enrolled students • Attendance rate • Class-wise strength • Average examination score	**Possible KPIs** • New enquiries • Admission conversion • Monthly collections • Pending fees
Management question Which classes need attendance or academic follow-up?	**Management question** Which enquiry sources and courses are contributing to admissions?

How a project is delivered

1. Discover

Discuss goals, current reports and the decisions the client needs to make.

2. Prepare

Review approved data, check quality and agree on definitions and KPIs.

3. Build

Develop the agreed analysis, dashboard or recurring report.

4. Validate

Reconcile key figures with source records and review the output with the client.

5. Handover

Provide agreed files, usage guidance and optional ongoing support.

04 | ENGAGEMENT OPTIONS

Indicative introductory pricing for small, clearly scoped projects. A final quote is provided after reviewing the institution's requirements, data sources, record volume, complexity and delivery expectations.

STARTER DASHBOARD	PROFESSIONAL ANALYTICS
■2,999 One-time indicative price	■5,999 One-time indicative price
• One dashboard • Basic data cleaning • Up to 5 agreed KPIs • PDF report and handover	• Up to 3 dashboard pages • Multiple agreed KPIs • Data transformation • Management summary
COMPLETE ANALYTICS	**MONTHLY MIS SUPPORT**
From ■9,999 One-time indicative price	From ■1,499 Per month
• Multiple dashboards • Admission, fee or attendance analysis • Advanced reporting • Automation where scoped	• Agreed report updates • Data cleaning • Monthly performance summary • Defined support scope

A few things we agree before starting

- Scope, deliverables, timelines, revision limits and fees are confirmed in writing.
- The client provides authorised data and confirms that it may be used for the agreed work.
- Online dashboard sharing may require separate software licences or client subscriptions.
- Confidential information is handled with agreed access, storage and deletion controls.

LET'S MAKE YOUR DATA WORK FOR YOU
